

2026 REVELATION AND PROPHECIES

The founder and General Overseer of God's Anointed and Blessed Church International, Pastor Toye Ebijomore, has released his prophecies concerning Nigeria and the World for the New Year. He made this known at the church headquarters in Akure, Ondo State during the crossover service, which equally rounds off the church Annual 40 Days Prayer and Fasting. The revelations and prophecies goes thus:

I give all the glory to God for always seeing us through our annual 40days prayer and fasting. By His mercy and grace, He has again revealed some secret things in this year to me with the interpretations and has also told me to prophesy accordingly, which I will hereby do to His own glory alone.

Revelation 1

When I began preparation for the annual 40 days prayer and fasting we are concluding today, the Lord took me into a vision and I saw myself in a certain community and standing upon a stage that looks like the platform altar at a crusade ground. I have never seen that kind of platform altar in my life because it was operating as an elevator, going up and down automatically for me to see the happenings in the community and around it.

In the vision, immediately at the outskirts of the town, there was an expansive land with giant grasses on it and so many criminals with dangerous weapons hiding inside.

Following this was a thick forest newly ploughed into hedges, having some big trees still standing thereupon and wild animals like wolves, bears and bush pigs going about in groups across the open land.

After these two lands, there was also a very big farmland of all kinds of crops and all the three lands were all lying straight on the sidelines of a foot path from the town, which people were passing through to the farmland to bring harvests back home.

Still in the vision, I saw that not everyone who went out from the town to the farmland got there or returned safely. Some of them were attacked by the criminals on the way and some by wild animals.

However, it happened that whenever the platform lifted me up to see people going to, or from the farmland and I raised up my hand in prayer, dew would be falling from the sky upon the people and those it fell upon returned home safely. Also, those who were under attack on the way and the dew fell upon were set free. Then, the vision was taken off from me.

Prophecies

1. This 2026 is a year of the power of the blood of Jesus.
2. There is great abundance ahead in this year, and attacks of the devil on people will also be many, but those who can pray genuinely and have blood of Jesus as a seal upon them will not be harmed.
3. In this year, there will be healing and deliverance for people who believe in the Lord.
4. The Lord said to me that He will appear in this year to vacate the curse of untimely death on many people and give them testimony of living healthy till old age.
5. There will be plenty of food in Nigeria from the second half of this year, but the government should work towards making foods and health cheaper for the people.
6. Insecurity will take a different dimension in Nigeria from kidnapping to robbery, sponsored violence, arson, and bombing in public places.
7. The government shoukd very carefully because there is a plan by some people to sponsor vain men against reputable individual, especially prophets, who speak tough to government and make it looks as if the government behind it.

Revelation 2

The Lord brought the first revelation to me and continued it. I saw that the expansive land which was having giant grasses as hideout for the criminals with dangerous weapons, and the thick forest which was ploughed into hedges with

some big trees and wild animals like wolves, bears, bush pigs there on it, have all been turned into modern estates.

Prophecies:

8. In this year, people will have lots of money in their hands, and there will be many government projects in places, but only a few people will achieve personal projects. The government should work against high prices of things and make foods and health cheaper for the masses.

Revelation 3

In another vision, I saw a big old tree standing in an open field and being greatly troubled by fierce storm, but against the expectaions of many people that it would break off, it endured till the storm was calm and three new trees suddenly sprang up around it at the end of the storm.

Prophecies:

9. The Lord said through me that a new Nigeria will be born in the year 2021 and people across the world, including those who left Nigeria to seek greener pasture will begin to find their ways back in six years thereafter. Then, 2 years ago, the Lord said through me that a new Nigeria has been born but because there are manipulations to kill the child, its naming could not be done and it has been taken into hiding and there will be more divisions among the people and continuous crisis until the new born nation of Nigeria is named. Now, President Tinubu will give Nigeria the new name before the end of his tenure, but three presidents will emerge from him.
10. The Lord said through me that there would be a very strong coalition of political party with a mission take up the federal power in 2027, but many misfortunes will greatly weaken their bond even to a break off. The ruling party will retain power in the next general election before the stronger political party that would wrest power from it in the future would be formed.
11. President Bola Tinubu is as the biblical king Cyrus. The Lord will strengthen his hand to make Nigeria great, but he should obey the instruction of the Lord for him to convene a national prayer for the redemption of

Nigeria's glory. Else, the final stage of the projects for a new Nigeria will be taken away from him.

12. The Lord unveiled through me in the year 2018 that Ondo has two gates, one in Ilaje and the other in Akure, which must be opened for the manifestation of the glory of the state. I obeyed Him to hold the Ilaje glory crusade at Igbokoda on the 12th of April, 2018, and it was that same day that the present governor of Ondo State, His Excellency, Dr. Lucky Ayedatiwa was screened by the Senate as the NDDC representative of Ondo State. Now that he is the sitting governor of the State, the Lord is strengthening his hands to perform great works for the manifestation of the glory of Ondo State, including the seaport in Ilaje as one of the two gates, but the second gate which is in Akure will be opened later and Ondo State will be a choice State.

13. In this year, there would be a move by the leaders to meet for a global peace.

I pray that the Lord who gave the revelations and the prophecies shall grant us mercy to receive the good ones and reverse the bad ones for our sake in Jesus name.
